

Defending jobs, defending university services

## Save '*Graduate to Merseyside*'

This service, part of the Careers and Employability Service, every year finds employment placements in local organisations and companies. These lead to high quality jobs for hundreds of graduates of the University of Liverpool.

Now, the University has decided to scrap it!

### But *Graduate to Merseyside* is crucial to:

- *The civic role of the University*
- *Connections to the City of Liverpool*
- *Local retention of graduates*
- *The economic relevance of the University*
- *Relationships with local business*
- *Local partnerships*
- *Student recruitment*
