

STUDENT SUPPORT HAS BEEN VITAL TO PREVIOUS SUCCESSFUL STRIKES

The working conditions and issues in the HE sector have a direct impact on your learning environment and experience.

Crippling workloads mean you are often being taught and supported by exhausted and demoralized staff. We want to offer you the best experience possible but unfair workloads, huge cuts to our pensions and rampant casualisation make that extremely challenging.

52% of teaching only contracts a UoL are fixed-term meaning you may not have your favorite lecturer next year and they have zero job security during the cost of living crisis

None of your lecturers or professional services staff want to strike, these issues cannot go unchallenged any longer

Our working conditions are your learning conditions

UCU will be undertaking 3 days of strike action on the 24th, 25th and 30th November

Student support has been invaluable in our action in the past and we are asking for your support again. We are fighting for a University dedicated to education over profit.
